| <b>Objective:</b>                         | Seek capital appreciation, and with a secondary objective of enhancing income                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Strategy:</b>                          | <p>The Fund seeks to achieve its investment objective by investing, under normal circumstances, at least 80% of its total assets (net assets plus the amount of any borrowings made for investment purposes) in public and private investments in the United States and globally in investments that provide exposure to the following real asset classes: (i) real estate, (ii) infrastructure, and (iii) natural capital, including but not limited to, agriculture, farmland, and timberland (collectively, “Real Asset Investments”).</p> <p>The Fund obtains exposure to Real Asset Investments by allocating its assets to investments in third-party private funds (“Private Funds”) that themselves invest in real assets; publicly traded equity securities issued by real estate companies, including real estate investment trusts (“REITs”); and publicly traded equity securities of infrastructure companies.</p> |
